

## **Abrasive Wheels and Cut-Off Saws**

### **COURSE AIMS**

This course is intended to provide a delegate with the necessary knowledge in order to select, inspect and safely use the appropriate wheels to suit the job. Selection and control of the appropriate PPE is also included.

### **LEARNING OBJECTIVES**

At the end of this course the delegates will: -

- Be aware of the relevant Regulations
- Have the ability to inspect machine for damage & suitability
- Ensure the correct selection of wheel to suit the job and machine
- Demonstrate an ability to inspect the wheel for faults before fitting to the machine
- Be able to correctly mount the wheels using tools supplied
- Be able to safely store wheels and equipment
- Demonstrate the safe use of PPE
- Demonstrate the safe use of assembled equipment

### **COURSE DURATION**

Half day.

### **PRE-REQUISITES**

There are no particular educational or competence pre-requisites for the course. However delegates should be physically fit

### **PERSONAL PROTECTIVE EQUIPMENT**

The following PPE is required for the practical elements of the training courses.

- Protective High Visibility Clothing
- Safety Footwear
- Protective Headwear

The protective equipment must comply with current safety standards.

This course has both classroom and practical elements (subject to client specification). No PPE will be required for the classroom element, the delegates will however require whatever PPE is normally required within the environment of the practical assessment.

### **CERTIFICATION**

A Certificate of Training will be awarded to the delegate on completion of the course.
